

The 11th International Conference on Advanced Infocomm Technology will be held in Jinan, China during October 18th-20th, 2019, following the successes of previous events held in Stockholm, Chengdu, Shenzhen, Xi'an, Hainan, Wuhan, Paris, Hsinchu, Fuzhou and Hangzhou. This conference will be organized by Shandong Normal University. This year the symposium will feature plenary talks given by world renowned scholars, and regular sessions with broad coverage and popular topics. Jinan carries the nickname City of Springs because of the many artesian wells that bubble up within the city limits. It is also a perfect base for exploring the region, notably Qufu, the hometown of Confucius, and Mount Tai, the foremost of the sacred Five Great Mountains known in Taoism. We sincerely invite you to save this event to your calendar!
